BROOKLANDS
WATCH COMPANY

Triple-Four Spectrum

Black | Racing Chronograph

Designed by Sir Terence Conran
Steel on Leather Strap

Movement

Calibre: SW500 BV b
Typical power reserve: 62 hours

Renowned for its legendary robustness, the self-winding SW500 is the quintessential Swiss automatic chronograph movement. The SW500 is characterized by its integrated chronograph mechanism and its multiple functions, which include a 30-minute counter, a 12-hour counter as well as a date display. The custom rotor incorporates the designer's signature and represents the master con rod and two articulated con rods of the legendary Napier Lion Triple-Four Aero Engine.
